

Voces de Esperanza (Voices of Hope): An Exhibit and Framework for Supporting Climate Change Conversations with Latine Audiences | AWARD #2314307

Community Partners: Verónica Núñez (Adelante Mujeres), vnunez@adelantemujeres.org
PIs: Cecilia Nguyen (Oregon Museum of Science and Industry), cnguyen@omsi.edu
Co-PIs: Nelda Reyes (AB Cultural Drivers)

[Project description \(informalscience.org\)](https://informalscience.org)

Project Description

The project seeks to broaden participation in climate conversations and action through an exhibit experience that we develop and study to identify content and design strategies for culturally and linguistically specific (Spanish/English) Latine(x/o) youth in grades 6–12 and their families.

Key Achievements

- What have you **accomplished** to date?
 - Begin recruitment of community members for the Colaborativo Comunitario
 - Connect and strategize with A [Climate of Hope](#) project at Natural History Museum of Utah

Audience & Settings

Audience: Evaluators, Museum / ISE Professionals, Families, Youth/Teen (up to age 17)

Disciplinary area: Climate

Learning environment:

Museum and Science Center Exhibits

Access and Inclusion

Equitable, culturally-driven co-development and evaluation strategies will include community members in all aspects of project development, and will offer Latine(x/o) youth and families opportunities to build awareness of and skills in climate change conversations that can foster climate actions in their communities.

- What have you **learned** (including learnings

This material is based upon work supported by the National Science Foundation under grant [2314307](#). Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation.

VOCES DE ESPERANZA (VOICES OF HOPE) | AWARD #2314307
