What role do Zoos/Aquariums play in an indi	lividual's lifelong learning experience?
Lifestyle/behavior change	
Roles of Z/A for:	
Early childhood education age youth	
Early elementary age youth	
Late elementary age youth	
Middle school age youth	
High school age youth	
Young adults	
Adults	
Parents	
Seniors	
Grandparents	
Members	
Volunteers	
Families	
Topically based research on:	
Conservation	
Climate Change	
Energy	
Sustainability	
Oceans	
Animals	
Connection to nature	
Connection to animals	
Held attitudes toward conservation	
Held attitudes toward animals	
Held attitudes toward Zoos/Aquariums	
How do Zoos/Aquariums compare with o	other informal learning institutions?
Satisfaction	
Cross-institutional studies	
Attendance	
Role of animals in learning	
How do Zoos/Aquariums shape social action and social activism?	
Interpreting message for understanding	
Motivation to move to social action	
Motivation to move to personal action	
Issue awareness	
Conservation Campaigns	
Role of exhibits in moving to social action	
Role of zoo in individuals' social action	

What role do 7000/Aguariuma pla	w regarding easiel com	ieee?
What role do Zoos/Aquariums plazaria Z/A and autism	ly regarding social serv	ices?
At risk youth		
Z/A and disability communities		
Impact on local community (non-economic)		
Values held toward Z/A Role of Z/A in larger community (perception of		
Z/A)		
Role of Z/A in schools		
	<u> </u>	<u> </u>
What are the unique characteristics	of learning in Zoos/Aqu	ariums?
Animal connections and learning		
Critical thinking		
Family learning		
Defining learning (structural) in Z/A		
Role of Z/A in lifespan learningscapes		
Entry conditions of visitors		
Experience and outcome relationships		
Nature play and learning
